demographic information and the statement detailing the religious beliefs that prevent immunization as requested on the following page.
- Sign and date the form: If student is under the age of 18, a parent or legal guardian must sign as well.
- A member of the Health & Wellness Center will review the certificate and determine if the information supplied constitutes a valid religious objection as defined by Illinois Public Act 099-0249 enacted August 3, 2015. If follow-up is required, Lake Forest College Health Staff will contact the student.
-
- No student is required to have an immunization that is contrary to the religious beliefs of the student or parent/legal guardian (if the student is a minor). However, not following vaccination recommendations may endanger the health or life of the unvaccinated student, others with whom they come in contact, and individuals in the community. In a disease outbreak, or after exposure to any of the diseases for which immunization is required, it is the right of Lake Forest College to exclude students from campus who are not vaccinated in order to protect all students, faculty, and staff.
- General philosophical or moral reluctance to allow immunizations will not provide a sufficient basis for an exception to statutory requirements.
