
The goal of the Dual Admission Program is to offer students Dual Enrollment during the summer terms at Lake Forest College prior to earning their Associate of Arts degree or 60 transferrable credit hours at Oakton Community College. Students participating in and completing this program will be offered _____ to Lake Forest College.

Students must have at least a 3.25 GPA and are required to take a minimum of one course up to a maximum of two courses each summer term beginning in the summer after their first year at Oakton. Students participating in this program are subject to the same admission and degree requirements, as well as the same academic policies governing all other Lake Forest College and Oakton Community College students.

Meet with your advisor at Oakton to verify eligibility to apply.
Submit this participation form to Lake Forest College during your first year at Oakton Community College.
