

Dr. Will Conrad is an Assistant Professor in the Chemistry department at Lake Forest College (LFC). When the Biochemistry and Molecular Biology (BMB) major first became official at LFC back in 2018, he joined the College to help the program grow as one of its co-founders. He specializes in teaching the Molecular Biology lecture and lab sections at the College, along with a senior seminar course whenever possible. He also teaches numerous other courses including Intro Chemistry Lab and Advanced Chemistry.
