"according to scientific research there are two genders male and female" and "scientific research supports the idea that there are more than two genders" were combined by flipping the results of one. Then, the categories "strongly agree" and "partially agree" were combined into one category, agree. The same was done for "strongly disagree" and "partially disagree." This simplification of

Figure Biology Construction April 2020, physical and Silver 4. Surgement of the collected scores data three bests in a solid induces a product score (after a solid of the collected scores around a better and a solid of the collected scores around a better and a solid of the collected scores around a better and a solid of the collected scores around a better and a solid of the collected scores around a better and a solid of the collected scores around a better and a solid of the collected scores around a better and a solid of the collected scores around a better and a solid of the collected scores around a better and a solid of the collected scores around a better around a solid of the collected score around a better around a solid of the collected score around a better around a solid of the collected score around a better around a solid of the collected score around a better around a solid of the collected score around a better around a solid of the collected score around a solid of the collected score
